Discussion of 2022 Tentative Budget

Mr. Schmidt reported that this was a continuation of the previous meeting for the 2022 Budget. Mr. Schmidt let those present know the updates concerning the fees, salaries and the cola increases, were adjusted in the current budget, presented at the regular board meeting on October 20, 2021. Mr. Millar continued to explain the reason for the changes. The Board and those present further discussed the updates on the tentative budget.

Discussion regarding Capital Plan

Mr. Millar move on to the discussion on the Capital budget. He turned the time over to Trustee Perry. Mr. Perry wanted to discuss the comp pool. He stated he had a walk through the facility with Mr. Millar, Mr. Schmidt, and Mr. Warren. Trustee Perry wanted to discuss, what options the facility may have to repair and get funding for repair and/or replacement of the comp pool. Mr. Hutchins reported he was here today to help support and help raise funds for replacement of capital projects including funding for the comp pool. The Board, Mr. Hutchins, and staff discussed the replacement of the comp pool and how they were going to go about getting funding, are there other options, and what kind of bonds are there to fund the project. Mr. Schmidt noted that we would need citizens advocates to help with community input.

Those present discussed funding options, what entities can the facility work with to gain additional funding sources, Chair Stringham discussed options for the funding and the various programs that are

out in the community. Chair Stringham mentioned TRCC (Tourism Recreation Culture Convention) funding. She also stated there is a tier 1 arts funding and a tier 2 programming funding which is available every year. They discussed a general obligation bond, along with other options.

Mr. Millar reported that they should not lower the property tax increase, the facility needs the revenue to move forward in the future. This organization needs this tax increase. We cannot talk about building a new building that we do not have revenue to maintain. We cannot turn this down, we desperately need this tax increase, not because of the comp pool, which is a tiny, tiny portion of why we need the increase. Mr. Perry said that he understands the information and the graphs and part of his hesitation was due to wanting to see what other revenue we could bring in for the budget to help offset the expenses by working with the managers and director. Chair Stringham discussed the issues that Covid has had on the facility in regard to revenue. This is a compounding problem for everyone, but unlike Cities and Counties we did not get ARPA funding to help backfill those expenses. Mr. Perry agreed. Mr. Hutchins discussed that how the District was left out of the ARPA funding, he does not understand. Chair Stringham discussed that Special Districts were left out. Mr. Hutchins explained that looking at the numbers, this amount is still not enough to raise the funding needed. Mr. Schmidt explained that the model is based on a 3% increase every year after this increase or a 6% increase every other year. Mr. Millar stated the original numbers he used was an increase of 30% now and 3% for the next 10 years in property taxes, this will barely be enough to keep the doors open to the community. Mr. Schmidt explained that this does not include doing a bond. The bond will add another \$850,000 in payments each year which would have to be added. Mr. Howick voiced his opinion on the options that were presented, he agrees with some of the information. Mr. Hutchins stated that it sounds like we need to get the District healthy financially first before we move to a bond. Mr. Millar, Chair Stringham and Mr. Schmidt all stated that yes, that is the purpose of the tax increase to get us in a more stable condition.

Mr. Perry thanked Mr. Millar for his passion on this, he stated he has passion for the facility and the public and would like to see that the pool is replaced. Mr. Perry continued to state that it does not look like we can work on replacing the comp pool now due to the need to work on the financial stability of the District. Mr. Hutchins stated he can help with the replacement of the comp pool; he does not think he will be able to help with funding for repairs and maintenance. Mr. Millar asked if they are going to go ahead and move ahead with the comp pool repairs or replacement. Chair Stringham stated they will be moving forward with it. Discussion and various other items discussed, concerning the budget, funding, and capital replacement items.

CITIZEN’S COMMENT

Chair Stringham welcomed all to the meeting and solicited any public comment. Mr. Howick made an observation on how to apply for funding to get the comp pool replaced.

APPROVAL OF MINUTES

After a brief discussion, Trustee Perry moved to approve the minutes for the following meetings:

July 21, 2021 - Working Board Meeting
July 21, 2021 - Regular Board Meeting

Vice-Chair Monson seconded the motion. Motion carried unanimously with Chair Stringham, Vice-Chair Monson and Trustee Perry voting “Aye.”

(The process for the minutes for each board meeting is as follows: Minutes are taken at each Board meeting and prepared for the Board to review for accuracy and completeness. The minutes are then e-mailed to each Board member. The Board members review the minutes and make any necessary changes, which are then e-mailed back to Ms. Johnson who is to prepare them for Board approval at the next regular Board meeting).

APPROVAL OF PAYABLES & FINANCIALS

After review, Vice-Chair Monson made a motion to ratify the August 4, 2021 payables in the amount of \$94,754.65. Trustee Perry seconded the motion. Motion carried unanimously with Chair Stringham, Vice-Chair Monson and Trustee Perry voting “Aye.”

After discussion, Vice-Chair Monson made a motion to approve August 18, 2021 payables in the amount of \$113,578.26. Trustee Perry seconded the motion. Motion carried unanimously with Chair Stringham, Vice-Chair Monson and Trustee Perry voting “Aye.”

After a brief presentation and discussion by Mr. Millar on the financials in the working meeting, Mr. Millar asked if the Board had any other questions. The Board did not at this time.

Mr. Perry stated he had a few things he would like to talk about on the financials, one of them would be that; at the last Board Meeting or two Mr. Millar stated that the facility would be out of money in the next 6 to 7 years, unless we don't do something radically like raising taxes, along with revenue increases, this goes to all managers and the Director as well. Mr. Perry asked, “If you were to find out that you would be running out of money in the next 6 to 7 years, in your own personal household, would you be kind of scared?” Mr. Perry stated I would, if I knew that in 6 to 7 years there would be no money. If you knew the money would be gone in that time, would you go buy a new car? I think that answer is a no. I was looking over a few things from the expenditures for Mr. Schmidt, there was a charge for \$434.00 for custom water bottles, it wasn't a lot, but for a custom-made item, still, what was that for and why? Mr. Schmidt stated that this was a for a staff item he has coming up. Mr. Perry said seriously, you would spend \$434.00, that kind of money for water bottle, could you not have had them printed, or do you mean to tell me that this cost less than to have a regular water bottle printed on? I don't see that, but you do. Mr. Perry stated that while he was at the facility, he looked in the Directors office and saw all new office furniture, all brand new, Why? I didn't see that on any expenditure report. Mr. Perry stated there had been all new furniture with the last Director, Mr. Schmidt stated he was told when he came on in December, there was money for the new furniture. And yet in those 6 to 7 years the District would be out of money, we still used those funds for new furniture.

Mr. Perry continued on by asking how many people would be going to URPA, his count was 13. Mr. Schmidt reported there would be only 12 going. Mr. Perry asked is that a normal amount of people to be going? Chair Stringham stated this is for Provo, more attend, and that when they go out of town there are way less people that go. Mr. Perry stated I did not look at it being out of town all I see is the \$3,130.00 that was spent for the conference. This seems to be fairly high when you look at the financial situation. This is something to think about.

Mr. Perry then stated that he sees Mr. Schmidt expense report, this is sent to the board every month. He does not see the managers reports, how come? They all have expense reports they send to Mr. Schmidt. How come the Board does not see them. I think we ought to see an explanation and a justification of what is spent, on those expense reports. I would like to see if we really need those items, "this is me Mr. Perry, I am not talking about my colleagues." I would like to see their expenditures as well as the Directors reports, I would like them to justify those items, are they a need and not just a want, most of them are justified, I understand that.

Another item, the Water Polo flights from the last payables list, did we pay for this, or how were these paid for. The reason why I am asking is, when I look at your report, I see 8 people going to Dallas, I don't see who paid for it? Where is the justification, I don't see it, I don't see who paid? Mr. Perry reported he only sees what's on the report. Mr. Peercy reported that this expenditure was paid for by revenues received from Water Polo. Mr. Peercy reported we charge the kids a fee for water polo which cover the fees for water polo events. Mr. Perry would like to see the justification for this.

Mr. Perry then asked about the PLATT Electrical expenditure on the Director's credit card, I don't know what this is for, there is no description or explanation, Mr. Perry did not understand any of it and why we paid so much. Mr. Warren stated it was for a contactor for the outdoor pools and explained the reason as to why it was so expensive. Mr. Perry also had some question concerning the IT charges along with the amount being spent. Mr. Perry wanted to thank Mr. Millar for explaining the IT charges to him. Mr. Perry reported we have also saved a lot of money since the Fire Water and Ice had been canceled and asked if we banked those funds, Mr. Millar reported the money is in the general fund.

Mr. Perry then asked about staff meetings, are managers explaining to their employees during their meetings what is going on with the financial situation of the District? Mr. Perry also asked how often all managers have staff meetings. Mr. Perry would like to know how often they are holding staff meetings within their departments, some of the mangers stated they hold weekly meetings. Mr. Perry stated that the managers need to pass down the information to their staff and let them know the situation we are facing in with the facility, knowing the funds will be out within 6 to 7 years. Mr. Perry stated they need to know, they may have a solution, and or ideas on how the District can save money Mr. Perry would like their suggestions. Then Mr. Perry would like a report on the information from the mangers. Mr. Schmidt reported that he meets monthly with managers on their financial budgets, and they meet weekly as a manager group. Mr. Perry would like staff to look at subscriptions cost, budget cost and he would like to know how we are going to save money.

Mr. Perry then stated the District wants to increase property taxes by 37% and then an additional 3% after that, Mr. Perry stated this was not going to happen. We should not dish the Districts problems out to the Kearns Community. Especially when work needs to be done. Mr. Perry stated this does not need to be put down to residences, Mr. Perry thinks that we need to figure out how we are going increase revenue. Mr. Perry would like to send it down to those who use the facility; he does not think the residents should have to pay. He is going to watch this very close even though he only has a few months left on the Board. Mr. Perry stated that

this information needs to be passed down to all. Mr. Perry then thanked Mr. Millar for all the hard work he has done getting the information to the Board.

He thanked everyone and wanted to let them know, he would like justification. Chair Stringham reported that the policy states that the general manager needs to review all the expenditures. Further discussion on expenditures, Mr. Schmidt would review and ask questions on all charges. They discussed ways to get the information to the Board before the meeting. Mr. Schmidt reported on the cost recovery process and the budget process would be happening side by side and is hoping for the information and process runs smoothly and managers will be able to adjust programs and have everyone involved including the Board.

After discussion, Vice-Chair Monson moved to approve the July 2021 financials as presented. Trustee Perry seconded the motion. Motion carried unanimously with Chair Stringham, Vice-Chair Monson and Trustee Perry voting "Aye."

OQUIRRH RECREATION INTENT TO RAISE PROPERTY TAXES

Chair Stringham turned the time over to Mr. Schmidt, He discussed the options and what the increase would be in various areas of the district. The District does not have an average household, the District has a variety of demographics and has different values in homes throughout the different areas. Some areas will be paying more than others and the Board is concerned on how to communicate this information to share with the patrons of the District, letting them know ahead of time as to why the increase is necessary. The Board and those present discussed the Oquirrh Recreation and Parks District increase in property taxes for 2022 by \$1,021,738 AND HOW TO GET THE INFORMATION TO THE District in a positive way.
